

## TENNESSEE DEPARTMENT OF AGRICULTURE

KEN GIVENS  
COMMISSIONER

REGULATORY SERVICES  
Ag Inputs and Pesticides

This is your pesticide registration renewal package for the period July 1, 2006 - June 30, 2007. Listed on the attached are the products we show registered through June 30, 2007. Please complete your application as directed below.

- 1) Make corrections to product or company information. List any new products, including the EPA registration number. Adjuvants are denoted by "ADJ" instead of an EPA registration number.
- 2) Tennessee requires a one-year discontinuation unless you affirm that no product remains in the channels of trade. To discontinue a product, write "DISC" to the far right of the line. Products exempt under FIFRA 25-b do not require registration. Manufacturing use-only products must be registered but are exempt from the \$100 fee.
- 3) Submit one (1) pesticide label for each new product, or an existing product whose label has changed. We do not require product data sheets, MSDS, or the EPA stamped label. Copies of labels are acceptable. ***If you are submitting more than 10 labels, please have them alphabetized to facilitate the processing of your application.***

We can also accept your pesticide label changes in a .pdf format via CD if you create each file as follows. To the left of each renewing product name is a number followed by an underscore and then the product's EPA registration number. That entire string of numbers, including the dashes and the underscore, is how you should name each file, adding nothing but the extension onto the end. You may send in labels of new products with just the EPA registration number as file name.

- 4) You will receive written confirmation of your approval ONLY if you submit a second copy of your registration form. You may also visit <http://www2.state.tn.us/agriculture/onlineinfo/default.asp> and check the status of each product. Submit payment of \$100 for each product, including any you discontinue. Mail it along with the corrected printout to the address below, ***attn: pesticide registration***. For overnight delivery other than via the U.S. Postal Service send to:

Ellington Ag Center, Porter Building, attn: pesticide registration, 440 Hogan Road, Nashville, Tennessee 37220

If you prefer to pay by Master Card or Visa you may do so by writing in your 16-digit account number plus the expiration date.

- 5) You may also renew on-line at our portal. It is located at <http://www.tennesseeanytime.org/agrso/>

Any application postmarked after July 31 will be assessed a late fee of \$50 per renewing product. If you have any questions, please contact John Ewell at [john.ewell@state.tn.us](mailto:john.ewell@state.tn.us) or 615-837-5340.
